

FLEXOWRITER FILE-DESKS

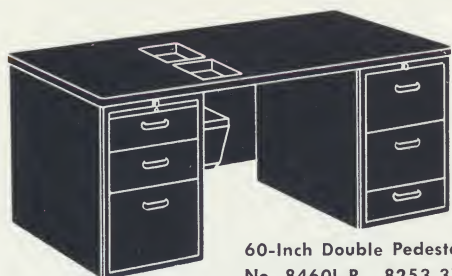

- ★ *Completely organized to increase production from your Flexowriter or RCA Tapewriter*
- ★ *"Custom-Tailored" from a wide selection of stock pedestals, desk tops, and drawer interiors*
- ★ *All punched data within arm's length of operator*

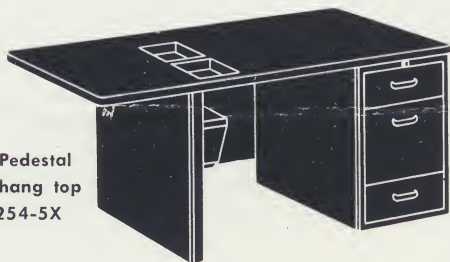

SHAW-WALKER

Largest Exclusive Makers of Office Equipment in the World

Wide Selection of Desk Styles and Pedestals

60-Inch Double Pedestal Desk
No. 8460L-R—8253-3X—8255X
with No. 8253-3X at left

60-Inch Single Pedestal
Desk with overhang top
No. 8460R—8254-5X

44-Inch Desk No. 8444L—8254-4X
At right: Cross-File No. 4043
Other cross-files with up to six drawers
— ask your Shaw-Walkerman.

60-Inch Desks, Double or Single Pedestal — The 60-inch Top affords ample space at both left and right of machine for handling work in process. Auxiliary reader, punch, or verifier can also be placed at right. Pedestals provide finger-tip access to all punched data for faster, easier reference, pulling, or re-filing.

60-inch double pedestal desk — Basic Stock Number: 8460L-R.

60-inch single pedestal desk, with pedestal at left, overhang at right — Basic Stock Number: 8460L. With pedestal at right, overhang left: 8460R. Top overhang is $14\frac{3}{16}$ ".

44-Inch Desk has pedestal at left only — Basic Stock Number: 8444L. Most widely used with Cross-File which houses punched tapes or cards (third picture at left).

L-Shape Desks — To provide additional working surface, an "L" wing can be added to any of our File-Desks, using a Shaw-Walker Expan-Desk® side top. When more filing or storage space is required, you can also add side pedestals or cupboards.

When Ordering — From the nine desk pedestals pictured below, you select those which fit your needs. Add pedestal number to Basic Stock Number of desk. For double pedestal desks, specify which pedestal is to be at LEFT.

Examples: To order 60-inch double pedestal desk with drawer arrangement pictured on page 1, specify No. 8460L-R—8255X—8253-1X, with No. 8255X at left. For the 44-inch desk pictured, specify No. 8444L—8255X. Other examples pictured at left.

Lock-Equipped — Each pedestal has signal plunger lock controlling all drawers. (Exception: pencil & ruler drawer of 8253's).

Dimensions — Desks are $26\frac{1}{2}$ " high, correct for machine operation. Tops are $59\frac{3}{8}$ " or 44" wide, $31\frac{3}{8}$ " deep. Knee-Space in 44-inch desks is $25\frac{1}{4}$ w, 25 h; in 60-inch desks, $27\frac{5}{16}$ w, 25 h.

Wide Choice of Finishes and Top Colors

Desks are available in Shaw-Walker's luxurious Silvertone, Coral Sand, Crystal Green, Blonde Tan, and Padre Brown (the Friden Flexowriter color). Tops are Amber Tan, Blonde Tan, Mist Green, or Gray linoleum.

Laminate tops are available in Satin Tan, Satin Gray, Satin Green; but linoleum is preferred because it provides better sound absorption.

Choice of Nine Desk Pedestals

Pedestal No. 8255X. The two upper drawers accommodate Drawer Interiors on page 4. Both operate on heavy-duty roller-bearing slides that extend drawers so every tape holder or edge-punched card is easily accessible. Low-height box drawer at bottom. Upper drawers, inside: $11\frac{3}{8}$ w, $26\frac{3}{8}$ d, $8\frac{5}{8}$ h; bottom drawer: $11\frac{15}{16}$ w, $27\frac{1}{16}$ d, $3\frac{15}{16}$ h.

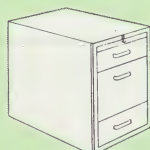

8253X Pedestals — Drawer arrangements: Top, pencil and ruler drawer; second, low-height box drawer. Third drawer in Nos. 8253-1X and -3X has four removable, sloping forms shelves. Other drawers — standard box drawers and vertical file drawer, arranged as illustrated.

8254X Pedestals — Drawer arrangements: Four standard box drawers, two vertical file drawers, or combinations of both, arranged as illustrated.

Vertical File Drawers operate on roller-bearing slides, pull out freely to full depth (page 3). They accommodate Drawer Interiors on page 4. Box Drawers operate on nylon glides, accommodate 3x5, 4x6, and tabulating card trays; also Shaw-Walker in-drawer work organizers. All drawer dimensions are in Office Guide, page 236.

OPERATING BENEFITS

To reduce noise and absorb vibration, desk top is heavily undercoated

To prevent machine "creeping" and ensure proper alignment with Tape Box, Retainers accommodate machine feet

To ensure efficient operation and longer machine life, Heavy-Duty Levelers stabilize desk, compensate for uneven floors

Saves Floor Space—Occupies less space than separate stand and file

For rapid machine production, all punched data is organized in desk drawers at operator's fingertips

To save time locating and refiling tapes and cards, automatic-tilting Wobble Blocks support punched data with perfect reference freedom

Maximum Flexibility — A single desk accommodates tapes only, cards only or combination of tapes and cards

Maximum Capacity — 60-inch desk houses up to 3,500 four-foot tapes or 39,000 edge-punched cards

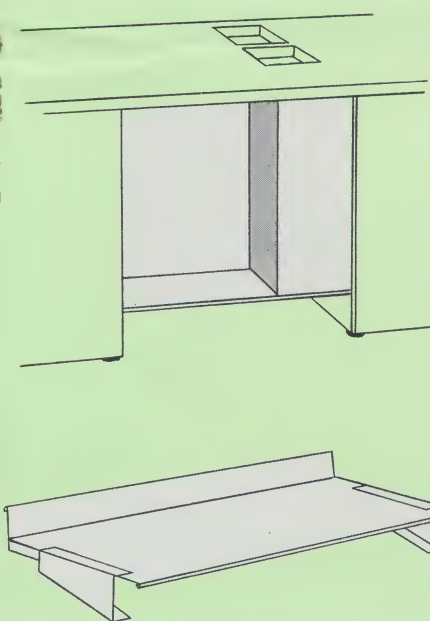

Easy-to-empty Chad Box readily removed through desk top without moving machine or reaching underneath

For complete knee space freedom, Tape Box slides back out of way during operation or when not in use

To insure precision feeding of pre-folded tape, a full carton can be placed in compartment of Tape Box

To hold catcher for pre-folded tape in exact position under Reader or Punch, the Tape Box Cover has a precision-spaced groove

For fast and easy access, tape winder, unwinder or both can be attached to Tape Box Cover

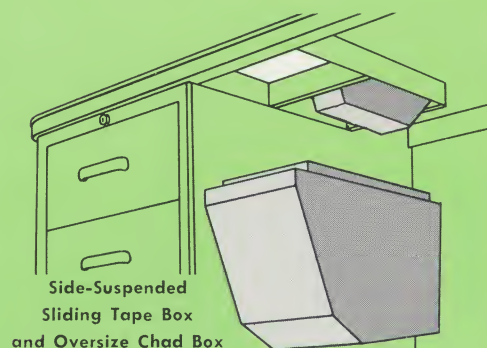

Optional Forms Shelf Back Panel is available on any Flexowriter Desk in place of standard straight back panel. Forms Shelf Back is designed so Tape Box in knee-space can still slide back out of way. Shelf is 19" w, 10" d.

To order Forms Shelf Back Panel, add suffix "X" to basic stock number. Example: 44-inch desk pictured on page 2 would be No. 8444LX—8254-4X.

Forms Re-Folding Rack — Shaw-Walker's Re-Folding Rack sets on desk top behind Flexowriter to catch typed continuous forms.—Eliminates wasted floor space and blocked aisles. Together with our Forms Shelf Back Panel, it makes an ideal combination for efficient forms handling.

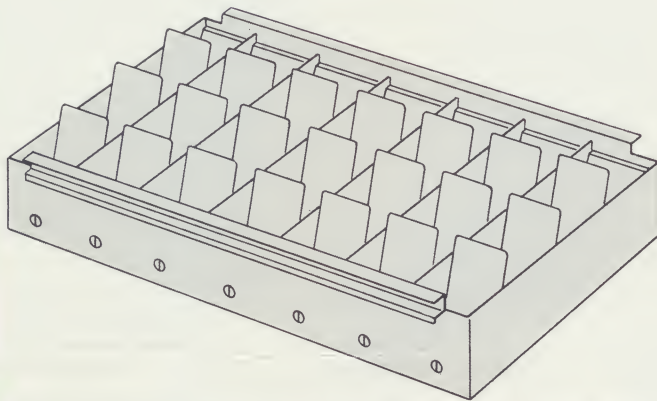

The 24-inch width accommodates "swing and throw" of the widest Flexowriter carriage. Depth adjusts to height of form. $3\frac{15}{16}$ h, $24\frac{1}{8}$ w, $9\frac{5}{16}$ d. Stock No. 4074.

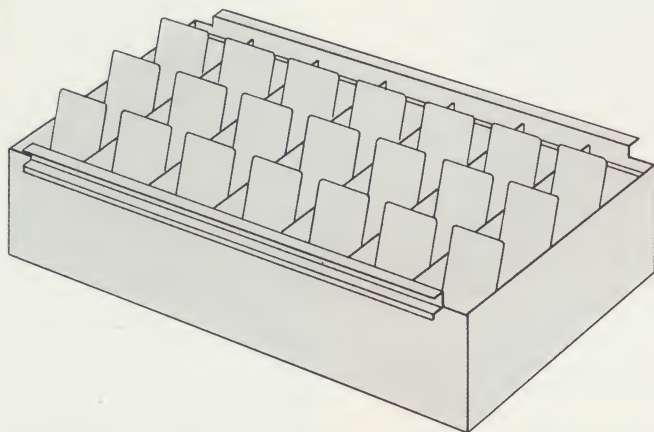

Side-Suspended
Sliding Tape Box
and Oversize Chad Box

DRAWER INTERIORS

for Flexowriter File-Desks

Drawer Interior for filing Punched Paper Tape Holders. Stock No. 4076

Drawer Interior for filing Edge-Punched Cards ON END. Stock No. 4077

Drawer Interiors rest on sides of the two upper drawers in Pedestal No. 8255X and Vertical File Drawers in Pedestals Nos. 8253X or 8254X.

Drawer Interiors have 7 filing compartments. Wobble Blocks support paper tape holders or edge-punched cards in "cross file" manner, facing the operator. Interiors are reversible; can be used at left or right of machine.

Drawer Interior No. 4076 is used for filing punched paper tape holders 5" high, 3" wide, No. PTH-1-CO and PTH-3-CO.

To prevent accidental removal, round rods with non-protruding screw heads hold tape holders and index guides.

Tape holders and guides have slotted round holes near bottom to permit filing and removal without removing rods.

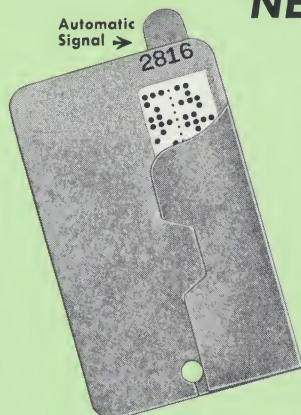

Filing Capacity with allowance for indexing and working freedom; Per row, 125; Seven rows, 875.—Figures based on tape holders containing average 4-foot tapes.

Drawer Interior No. 4077 is used for filing edge-punched cards on end; 7" high, 3" wide.

Filing Capacity with allowance for indexing and working freedom: Single cards with information typed directly on cards; Per row, 1400; Seven rows, 9800. Single cards with labels affixed; Per row, 895; Seven rows, 6265.

Filing Capacity of labeled, multiple cards, with allowance for individual separators, indexing and working freedom: —

	One Row	Seven
2-card units	360	2520
3-card units	290	2030
4-card units	245	1715
5-card units	210	1470

Tape Holder with Automatic Signal for Charge-Out
5" high by 3" wide
No. PTH-1-CO

NEW Simplified Tape Holders and Filing Equipment

Shaw-Walker research has developed simplified tape holders, indexing and equipment for I.D.P. systems.

In daily use all have proved to be far ahead of anything else yet devised. All eliminate lost motion in handling punched paper tapes — put tapes at machine operator's fingertips — prevent loss or misfiling of tapes — can be easily expanded or contracted. Some Shaw-Walker equipment provides 24-hour fire protection at point of use.

One of the many Shaw-Walker combinations is best suited to your operation. Phone your Shaw-Walker Branch or Dealer or write Shaw-Walker, Muskegon, Michigan or Chrysler Building, New York 17, N. Y.
